

**The CANTON DM 60 – big sound for flat screen televisions with the latest technology for even more thrilling listening pleasure**

Weilrod, 28 May 2018. **Good news for living room sound: the DM family is growing! As a successor to the smaller DM 55 sound deck, the new DM 60 has optimised signal flow and new electronics with additional useful features. The two integrated downfire subwoofers and the virtual surround decoder ensure a full and complete sound – for home cinema and music.**

**Big sound with many features**

For films, music or sporting events: With a 200 watt system output with integrated subwoofer, the DM 60 is perfectly equipped to fill any living room with rich, high quality sound. Like its predecessor, the DM 60 offers easy installation, Bluetooth® support and a durable housing – plus the following new features:

- Virtual music surround
- Individual mid-range control (+6 dB)
- Input configuration and renaming
- Autoplay function – automatic Bluetooth® playback
- Sleep-Timer function
- Restore factory settings – Reset function

**Elegant design for any living room**

The DM 60 looks great in any home: The high quality HDF housing with its elegant glass panel can easily support televisions weighing up to 40 kg, and at 54.5 cm wide, 6.8 cm high and 30 cm deep, it offers plenty of secure, flat surface. The colours of the DM 60 also make it a good fit for any living room – with a “silk-matt” finish in white, silver or black.

The CANTON DM 60 is available from specialist retailers.
