

ERGO GS EDITION

Timeless beauty combined with the technology of today.

For our 50th anniversary, we are reviving our first floorstanding loudspeaker from 1979: Based on the old design, we have acoustically optimised the timeless cabinet for perfect sound volume and equipped the interior with state-of-the-art technology components. With a height of 103 centimetres, the loudspeaker shines in the low and mid-range with ceramic tungsten technology and thus delivers dynamic, powerful and precise sound.

Product data Ergo GS Edition, limited quantity

KARAT

GS EDITION

A jewel, polished to new brilliance.

The anniversary model of the Karat floorstanding loudspeaker remains true to its line from 2002 and also delivers the special feature of the side-mounted woofer chassis in the relaunched version. Equipped with ceramic tungsten technology in the midrange and an aluminium oxide ceramic tweeter, the loudspeaker passes every musical challenge and delights audiophile music fans and fans of high dynamics alike. The Karat GS Edition masters all musical registers and, in addition to the outstanding Canton sound, convinces with the highest durability and finest manufacture.
